Easily the greatest the purchase I have made. Be warned though, it won't run well unless you have an i7 and a 1000 series NVidia gpu. Makes a great wedding gift!. Tomato Jones is back to face the danger! If the first game was hard, this one will make you see a tomato that will be mashed, drowned, burnt and a more over and over and over again XD

The old controls are back. You can move forward, backward, left and right as well jump, which will require all of your platforming skills to dominate such moves.

The addition of water is a plus, it is funny to see the tomato drowning lol

Another plus is that you now can put those coins you collect into use to buy other hats for Tomato Jones which are the ones the enemies use (helmet, the indian headdress, a viking helmet, a feathered hat (which reminds me a lot to the one The Mask uses XD) and that hat the Generals use which I don't remember its name right now n.nU

At least now you can give your tomato a new look with those hats XD

And of course, you don't even have to waste your breath getting angry when you die since the game does that for you pretty well with all those funny phrases you randomly get when Tomato Jones dies XD

Just a thing for Ati graphics owners. The game loads well, you can play well, but when you finish a level, if you click on any of the options (next level, return to map or exit game), the game will freeze. I already reported this to the game's dev via Tomato Jones facebook page and he will look into it :)

It may not happen with all the Ati models, but I thought in tell you so you won't get the surprise. Then again the game just got launched, so it is normal for it to have some bugs here and there, but nothing that can't be solved via an update later.

The game's price remains in a very affordable price, and you will get a really fun and challenging game, which reminds you of the glorious old school gaming. That one in which the games weren't too complex and yet they were challenging and fun :). Tomato Fortress 2, you can change the hat.. this game made my hungry again. Tomato Jones has saved my life for once, and this has made it twice. Just remember when you pull out that gun think of the little tomato wearing a straw hat rolling.

He will not leave you Hail the tomato Be the tomato 10V10 best game series ever. Tomato Jones 2!!!. First person to write a review for Tomato Jones 2

Also this is waaay harder than tomato jones the original
